

2006 SBA FINANCIAL SERVICES CHAMPION AWARD

SUPPORT LETTER FOR DENNIS PIPER

We are small women owned business doing paving in the Pittsburgh area. We employe 25 employecs located in Braddock, Pennsylvania.

Through the years I have used the services of larger well known accounting firms and was not satisfied. One of our business associates recommended Piper & Associates.

We have been very well served by this firm. There is a high level of hands on service and quick response to inquiries by this firm. The price structure is very affordable to small businesses.

They have performed tax filing, financial reviews and business audits.

When our company needed a new software package, they assisted in recommending one for our specific trade and provided training for all key personnel.

We have been pleased with the staff at Piper & Associates. They are very well informed and a delight to work with.

Every question and/or concern whether big or small that we may have is treated with an equal amount of importance.

I have the utmost confidence in their thoroughness and attention to detail.

I would recommend this accounting firm to anyone.

Sincerely,

Susan M. Sciarretti, mw
